Claim Objections

Claims 2-14 are objected to because of the following informalities:

In Claim 2, line 2 – the terminology “the blade” is not clear since a blade wasn’t mentioned in prior claim 1.

In Claim 3, line 3 – the terminology “the diaphragm” is not clear to examiner, since no mention of a diaphragm was stated in prior claim(s).

In Claim 14, line 1 – the terminology “the protector” is not clear to examiner, since no mention of a protector was stated in prior claim(s)

Appropriate correction is required.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Marsteller (US Patent No. 3,401,534). Marsteller discloses a condensate means for an air conditioner comprising: an evaporator (E) within a chamber (EC) at an indoor space, a condenser (C) within a chamber (CC) located at an outdoor space, cross blowers (13,14), a sump (12) for containing condensate water and furthermore flanges (15) for slinging condensate, a shroud (18) having an arcuate form.

Allowable Subject Matter

Claims 2-14 would be allowable if rewritten to overcome the objection/minor informalities, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.
